We continue to support families who have no mains electricity via solar packs that provide 10 hours of light per night to needy families. In photo above you see a Mother with a solar light just being installed and in the back ground Grandmother also.

In March northeast Romania in the early part of the month suffered heavy snow falls like here seen in Vama rural village in Suceava County. Despite the snow we again visited kindergartens with the wonderful Timmie learning products that are giving children a real start right where it matters in pre school, thus standing them in good stead for further development in mainstream class as they move up grades!
